Setback in the more active options, July and September, evidence of unusual selling pressure both on the part of longs and aborts. Financial strain and abnormal traffic conditions were the prices, which ranged from %c to 2%c lower, with July 1.67% and September 1.57% 1.59%, were followed by decide further setbacks and then some thing of a rally.

Oats showed relative firmness compared with corn. Big commis sion houses were aggressive buy ers, and were able to take all th offerings. After opening %c to to 89c, the market sagged a littl more and then began to harden. Provisions were steadied by ne upturns in the value of hogs.
